## SUSTAIN

AP 5001S is a strong profile which can carry everything from light to heavy curtains and it is one of our most popular curtain tracks - also as a room divider, for ceiling curtains and for bathrooms. The AP 5001S profile was originally designed for technical curtain solutions in healthcare facilities, and the cubicle track therefore has a wide range of options for mounting, bending and milling, as well as a lot of specially designed accessories. Produced in minimum 75% recycled aluminium, making it part of our SUSTAIN™ portfolio.
